

Come and see

WYD-Song 2005 in Cologne

Lyrics and Music: Gregor Linsen

1. With hope and with faith - ful-ness we have been go - ing just to

see, where the kings were draw-ing to. In dark and in fear

we have been tur-ning when the call came: "Go and trust in him!" and a

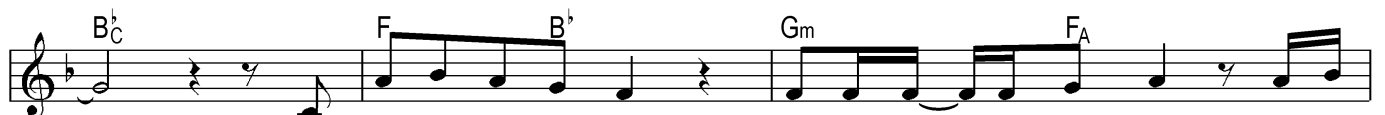

star be-gan to shine in the night sky to lead us be-yond the ho-ri-zon.

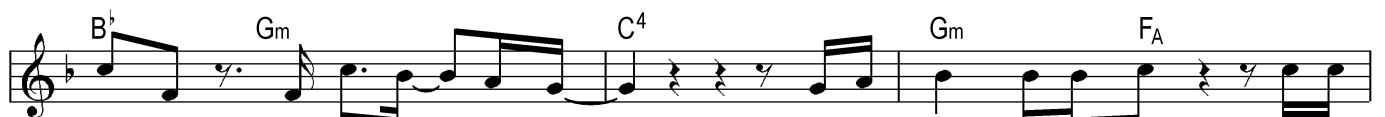

KV: Come and see! O-ver us shines a good star! Come and see: God is here! here!

2. With won-der at all we want to see for the shep-herd, whom the shep-herds re-vere.

Our dril-ly and la - ment Ma - ry bring to-wards him yet un-

spo-ken, he'll al - rea - dy know. and a smile's by the cross of the

night sky where did made thread - ness ne - ver more. Hey, yeah!

3. My heart and my soul we want to worship / the king, the kings were praying to. / And burning for him we begin a new time, / so let the shadows will never return. / For the light will vanish the darkest night / and at last we'll see the red of God.

4. Now sing all you peoples and all you nations, / sing for him, who's God Immanuel. / God is here, and he's with us, he wants to seize us, / so that the spirit can reach all the world. / And mother Mary cradles her new born child, / in her arms sleeps the son of God.
